

UzMetalMashExpo

XII INTERNATIONAL EXHIBITION

«UzMetalMashExpo-2021»

Metallurgy and metal processing / Machine-tool construction / Welding

5-7 May, 2021

Tashkent, Uzbekistan

XII International exhibition «UzMetalMashExpo - 2021», will take place from 5 to 7 May 2021 «Uzexpocentre», pavilion №1 of Tashkent.

The participation of international and domestic companies in the exhibition «METALLURGY AND METAL PROCESSING. MACHINE-TOOL CONSTRUCTION. WELDING» will undoubtedly promote the development of trade and economic cooperation and strengthen business relations, will establish cooperation in the field of scientific research and application of new technologies, establishing joint ventures and

Exhibition is organized with the official support:

The Ministry of Investments and Foreign Trade of the Republic of Uzbekistan;

The Ministry of Transport of the Republic of Uzbekistan;

The state Committee of the Republic of Uzbekistan on Geology and Mineral Resources;

Mayor's Office of Tashkent City.

Organizational support of the NEC «Uzexpocentre»

Investments in the modernization of mining and metallurgical industry of Uzbekistan in 2017-2021 will amount to 1.5 billion dollars. The program, includes 41 projects on modernization, technical and technological renewal of production at two industry — SE «Navoi mining and metallurgical Combinat» and JSC «Almalyk mining and metallurgical plant».

Production of ferrous metallurgy to go up by 11.1% in Uzbekistan

Navoi mining and metallurgical Combinat for five years, plans to carry out 27 projects with a total cost of \$ 984,5 million. AGMK by 2021 intends to implement 14 projects worth about 500 million dollars.

MAIN SECTORS OF THE EXHIBITION «UzMetalMashExpo-2021»:

Metallurgy and metall processing:

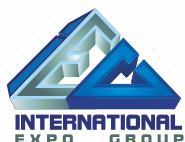

- Ferrous industry and Non-ferrous industry
- Special steels and alloys: manufacture and products (long products, flats and tubes)
- Powder metallurgy
- Raw materials for the metal and steel industry
- Equipment, machines and technology for metallurgy industry
- Foundry equipment
- Equipment and technologies for steel industries
- Press-forging equipment
- Wire, ropes, netting, fasteners and other.
- Ferrous and non-ferrous scrap collecting and recycling
- Refractory materials, technical ceramics for the steel industry and foundry
- Control and measuring machinery, instruments and tools

Machine-tool construction:

- Machines and machining centers
- Machine accessories
- Metal cutting tools
- Lubricant and cooling and lubrication systems
- Assembling equipment
- Conveying machinery; lifting and transporting equipment
- Equipment designed for surface treatment
- Laser equipment and technologies
- Equipment for construction and assembling works
- Control and measuring equipment
- Refrigerating and Drying units, ventilation equipment
- Hydraulic and pneumatic systems and components
- Compressors, Fittings, Pumps
- Actuators and Engines
- Control and measuring machinery, instruments and tools
- Bearings for all industries
- Components, assembly units and devices
- Manufacturing Automation
- Complex services related to preparation and setup of manufacturing and distribution of machine building products
- Special clothing and means of individual protection

Welding:

- Equipment and technology for welding, surfacing and soldering
- Equipment and technology for heat treatment
- Materials for welding, cutting, spraying, surfacing and soldering
- Protection materials and methods
- Quality control of welded joints
- Welding tools and facilities
- Modernization of welding processes at industrial enterprises
- Power-saving technologies in welding and thermal production processes
- Automation and robotics in technological processes
- Quality testing, Measuring equipment and technical diagnostics

For questions of participation in exhibition, please contact:
Olga Sokolnikova
